

## Nepalese Society Singapore (NRNA-Singapore)

### NRNA Singapore Activities Summaries *Year 2015-2017*

Nepalese Diaspora Community, officially known as Nepalese Society, is the only locally registered Nepalese grassroots community organization with Registry of Society Singapore which represents NRNA in Singapore.

Though small in numbers, over the years Nepalese Diaspora Community in Singapore has evolved into a noteworthy vibrant diaspora community. Our community and members are involved in organizing and participating various important events & activities such as

- Meetup and talk programs with noteworthy and valuable personalities,
- Workshops and activity based learning programs,
- Various Nepalese & local cultural events,
- Nepal Tourism & Business promotion events,
- Sports & Recreational activities and events.

Our involvement with our community members and volunteers provided us an opportunity to expose ourselves to other communities. This in return provides an opportunity in understanding the importance of learning from other communities, sharing our traditional culture, value for mutual respect and honor.

We hope to continue our activities and involvement in possible events that are beneficial to our diaspora community greatly in future.

Thank you.

Sincerely

Raju Sharma (Ghorasaini)

NRNA - ICC, Singapore
